
Indo-German Workshop on

Water Availability and Quality Under Varying Environmental and Urban Conditions

Heidelberg University, Germany
October 22-23 (Friday/Saturday), 2021
Info: https://conan.iwr.uni-heidelberg.de/events/water2021/

Aim:
Bring together researchers from geography, chemistry, biology, hydrology, social sciencs, applied mathematics and scientific computing to foster interdisciplinary exchange on the subject

Topics include (but not limited to):

- **Socio-hydrology and water resources management**
- **Environmental contamination and remediation**
- **Sustainable technology for water purity**
- **Cryosphere dynamics**
